

COVID-19 safety policy

I warrant and represent that I will remain aware of and abide by local law and public guidance on reducing COVID-19 exposure, and will follow best practices in relation to K9 Companion Academy's services regarding social distancing and sanitation.

I understand that I may be asked to confirm my health and the health of all other members of my household, including awareness of any fevers or other symptoms, before each in-person training session. I represent and warrant that I will provide full and complete, accurate information as known to me

Guidelines and policies for in- home services

- The session will be conducted outdoors
- We will not shake hands
- I will greet your dog without touching him/her
- I will avoid touching door, door knobs, tables, chairs, or any other surface in your home
- If weather turns bad during the session: If there where 15 minutes or less remaining of the session we will have the option of going inside your home and finish the session. We will need a ventilated area with open windows or will need to keep an outside door fully open. If more than 15 minutes were remaining of the session, we will need to re-schedule the session
- If anyone in your household is sick, we will need to cancel any scheduled session
- If anyone in your household test positive for COVID-19 we can move to online sessions or wait one month from recovery to resume in-person sessions
- Use of face covering: The use of face covering while being outside is optional. Inside the home face coverings are required for all people involved in the session.
- Social distancing: We will maintain at least six feet between us at all times, outdoors or indoors.
